

Irrigation Water Meter Pit Info Sheet

Required for Review:

- Water Meter Size
- Will a new electrical service be required?
- Water Flow
 - Gallons per day
 - Water Flow amounts must be consistent with any amounts identified for water adequacy and irrigation review with a subdivision or site plan
 - Water Conservation can help if you have calculation questions (eneustrup@bozeman.net)
- Meter Pit details
 - [COB Modifications to Montana Public Works Standard Specifications](#) (pages 137 & 138)
- Site Plan
 - Must show meter pit location

Other Helpful Information:

- Water meter/pit location will need its own address
 - If you need an address, please contact the [Engineering Division](#)
- Impact Fees will be assessed and are due before final approval
 - [Sec.2.06.1670.-Water impact fees](#)
- When Finance is contacted to set up billing for the water meter, a work order will be created to have your meter delivered and the pit inspected.
 - The Building Division will NOT conduct inspections
